Insurance Scholarship Foundation, Inc.

Ensuring the future of
our industry by supporting
students studying the
business of insurance

Make a difference for the future of our industry

The New York Insurance Scholarship Foundation, Inc. (NYISF) gives the insurance industry and its leaders the opportunity to shape the future and give back to the community.

The breadth and depth of skill needed to work in the insurance industry is greater than ever. The industry and insurance consumers have grown more complex, making it crucial that we have a vast and talented pool of potential employees to fulfill the needs of our companies and the individuals we insure.

The New York Insurance Scholarship Foundation was created to ensure the sustainability of the insurance industry and ideally make further growth a real possibility. The foundation allows members of the insurance community to invest and be involved in the future of the industry.

With the support of the New York Insurance Association (NYIA), NYISF was founded and incorporated as a

separate charitable organization that remains affiliated with NYIA and its over 125 year history of service to the industry. The foundation is an enduring initiative that enables the insurance industry to support the educational goals of students pursuing an insurance-related degree through a New York college or university.

The students enrolled in these programs will be ready to take on leadership roles within the industry and will be prepared to make meaningful contributions to the business of insurance. Providing financial assistance to those interested in a career in insurance or risk management only helps our cause. NYISF is an ideal vehicle for the industry to demonstrate its support for educating the next generation of insurance professionals.

Please take advantage of this unique opportunity to make a commitment to the continued growth of our industry in New York State.
